

**REMARKS**

Claims 17-20, 23, 25, 27-34, and 36-41 are pending and have been allowed. Claims 17, 18, 29, and 34 are being amended herein. Claims 1-16, 21, 22, 24, 26, and 35 were previously canceled. Claims 19, 20, 23, 25, 27, 28, 36, and 38-41 are cancelled herein. Claims 42-60 are added herein. Support for added claims 42-60 is found throughout the claims and the specification as filed, specifically claims 17 and 18. Thus, no new matter is presented.

The claims previously allowed were directed to a process comprising applying a herbicidally effective amount of a composition containing a phospho-herbicide selected from the group consisting of glufosinate and glyphosate. The claims are now amended without prejudice to recite a composition containing glufosinate and applicants expressly reserve the right to, and intend to, pursue claims reciting a composition containing glyphosate in a separate application.

**CONCLUSION**

Applicants request the entry of this Submission, and continued examination of this application.

No additional fees are believed necessary. However, please grant any extensions of time required to enter this paper and charge any additional required fees to Deposit Account No. 50-1676 in the name of Syngenta Crop Protection, Inc.

Respectfully submitted,
